

## **TITLE: SKILL DEVELOPMENT PROGRAMS**

### **Goal:**

To improve the students' overall performance.

### **The context:**

To facilitate teaching, learning and research capabilities of students.

### **The practices:**

1. All the students are taught value added courses.
2. Students develop skills through centre of excellence.
3. Miniproject competition conducted every semester
4. Training given by external agencies to improve soft skills
5. MOOCS/ NPTEL and other online courses
6. Industrial training and industrial visits

### **Problems Encountered:**

1. Few students are reluctant.
2. Slow learners find difficult to cope up with academics and extra courses.

### **Resources Required:**

Research and Interaction with industries

### **Evidence and Success:**

Improvement in placement and corporate competitions

**Title: ICT ENHANCED TEACHING LEARNING**

**Goal:**

To enhance teaching learning process through effective use of ICT

**The Context:**

ICT serves as platform for faculty and students to participate actively in teaching and learning

**The Practice:**

1. Teaching through power point presentations, videos, animations, etc
2. Assignments through Google forms
3. Instructions, follow up through Google classrooms
4. Question paper set using software
5. Email and Whatsapp groups for discussions
6. Online feedback

**Evidence of success:**

Improved academic performance improved attentiveness and engagement, easy tracking of response, enriched overall learning experience

**Problems Encountered and Resources required:**

Internet connectivity problems in economically backward students
